Ancient Cities is an introduction to Mediterranean archaeology, surveying archaeological sites from the Neolithic period (ca. 9000 B.C.) to Late Antiquity (ca. 600 A.D.). The course focuses on the beginnings of group living in complex societies and traces the development of cities and urban living through the Bronze Age, Classical, Hellenistic and Roman periods in the Mediterranean. Major sites include: Catal Hoyuk, Ur, Mycenae, Knossos, Athens, Amarna, Rome and Constantinople.

Fulfills Social & Behavior Sciences (SS, HS) and World Before 1750 (WB) General Education Requirements!
